

REMARKS

Claims 1, 2, and 6-11 as submitted August 31, 2005 remain pending and under consideration. A supplemental sequence listing is submitted herewith to include each of the sequences in the figures of the application as filed. The specification has been amended to correct reference to sequence identifiers in the sequence listing. Additionally, the specification has been amended to capitalize trademark names.

In response to telephone discussion with Examiner Nashed on September 13, 2005, the present sequence listing and amendments to the specification are being filed. The Examiner indicated the claims as allowable, and the application requiring a corrected sequence listing and correction of reference to trademarks properly in the specification. The amendments contained herein correct any inadvertent lack of capitalization of tradenames, and add proper reference to sequence identifiers of the sequence listing. Furthermore, a supplemental sequence listing is submitted herewith which includes each of the sequences in the Figures of the application as filed. No new matter is added by virtue of the sequence listing or the amendments contained herein. It is Applicant's understanding that the present amendments render the application in condition for immediate allowance, which action is solicited.

It is believed no fees or extensions of time are required for this submission. In the event any additional fees or extensions of time are necessary, the undersigned hereby authorizes the requisite fees to be charged to Deposit Account No. 501668.

Entry of the remarks made herein is respectfully requested.

September 23, 2005

Respectfully submitted,

MILLENNIUM PHARMACEUTICALS, INC.
